

“Mamma Mia, Let’s Break Some Plates!”

Island Hopping the Greek Isles

June 14-22, 2019

Who hasn’t longed to walk the lands of the Greek gods and sail the seas they conquered? We’ve sent dozens of cruise groups to Greece. It’s time now to mix it up and do it right with longer time for exploration and rejuvenation on the absolute best of the Greeks Isles!

This is truly a Bucket List adventure. Here’s the cradle of western civilization with ancient wonders, lively tavernas, sun-kissed beaches and a true spirit of Greek hospitality. Come hydrofoil across the glittering Aegean Sea to islands where the towns painted completely white, juxtaposed against the bluest blue waters you can imagine. If you've longed to visit these isles, you’ll actually get time to spend exploring them and making them your own.

Our quest for the Ultimate Greek experience begins in glorious Athens, taking in the iconic sites - from the first Olympic stadium and the pom-pom shoed guards of Parliament, to the crowning glory of the Parthenon high atop the Acropolis. Then, it’s on to trendy Mykonos, to be greeted by the island mascot Petrus, the pelican. It’s easy to see why this island is called “Little Venice” with its clusters of houses along the azure waterfront. Lose yourself in the winding streets and wander to the famous windmills. Mykonos is known for its lively beach clubs, including the like the Buddha Bar! We then ferry to the island of Delos, birthplace of Apollo and once the center of the ancient world.

Breath-taking Santorini lures us next. Legend has it as the Lost City of Atlantis, which emerged from the Aegean following a volcanic eruption. We’ll spend 3 glorious days here in the lap of luxury! Climb the caldera, bathe the warm sea with its unique beaches, soak in hot springs, view wineries and archeological ruins. We’ll drink in the culture in a true Greek evening of food, music, dance and of course some plate smashing. And, we enjoy a Catamaran Sunset Cruise over to Oia, considered the most romantic spot on earth.

Last is my favorite, Cape Sounion – the southernmost tip of Greece and one of the country’s most photographed spots – the Temple of Poseidon, perched high on sea cliffs for amazing panorama for your best selfies ever.

You’ll love our hotel and our excellent group air rates available. If this is your first time to Greece, you may want to go in early. If you’ve been before, I promise you’ve never experienced Greece like this. Wave to the hoards to cruise passengers and allow yourself time to truly savor the treasures of Greece in a way that will have you wanting to return again and again.
